

The **app Seating System** is designed to optimize individual comfort, immersion and alignment by working in harmony with Comfort Tension Seating®. **It is a no maintenance, easy to use system**, made with high-specification foam and covered with a low friction, low shear waterproof fabric.

**Ergonomic seating** is clinically proven in managing the forces of gravity that cause pain, fatigue, slumping, sliding and leaning.

- The **self-adjusting** head support fits all shapes and sizes

1.

**Skeletal Support and immersion for high performance pressure redistribution**

2.

**Reduced musculoskeletal strain and balanced posture**

3.

**Enhanced body centering and safety**

**Easy to Install.  
Attaches Securely to  
Chair Components.**

**Enhances the performance of BRODA chairs for those requiring additional positioning:**

- Improves posture, comfort and alignment through additional contouring
- Reduces shear and increases comfort with 4 way stretch, breathable and waterproof fabric
- Optimizes pressure redistribution, together with Comfort Tension Seating®

Shown on model 785 Elite Tilt Recliner
